

Leo Sakharoff

Software Developer · MSc Software Design @ ITU

Copenhagen | +45 6167 5306 | [E-mail](#) | [LinkedIn](#) | [Codeberg](#) | [Portfolio](#)

PROFILE

My path into software began through jazz piano, where I learned to think creatively and navigate abstraction—skills I now apply to system design and architecture. I'm finishing my MSc in Software Design at ITU and have worked in startups where I could take ownership and explore new technologies. I'm drawn to meaningful work—building reliable software that solves real problems—and teams where collaboration is close and learning is continuous.

RELEVANT EXPERIENCE

Freelance Developer

2024 – Present | Copenhagen

- [ONTO](#) — Portfolio for film company with adaptive streaming and mobile optimization (React, TypeScript)
- [Overtone](#) — AI music discovery using audio embeddings and vector search (FastAPI, PyTorch, Qdrant)
- [Orchid](#) — Real-time jazz harmony analyzer with MIDI input and ML chord recognition (React, TensorFlow.js)
- [MCP Servers](#) — Model Context Protocol integrations for Bandcamp, Discogs, and YouTube Music

Software Developer — Semantic ApS

Feb 2025 – Feb 2026 | DTU Science Park

- Developed multi-tenant B2B SaaS platform for e-invoicing integration with Nemhandel and Peppol networks
- Built full-stack features in C#/ .NET 8 with Blazor Server frontend and REST APIs
- Implemented real-time document processing with SignalR, Entity Framework Core, and Azure SQL
- Integrated Azure cloud services (Blob Storage, Service Bus, Key Vault, Application Insights)
- Collaborated in Agile sprints using Jira; contributed to CI/CD pipelines with GitHub Actions

Sound Designer & Composer — No Latency

2017 – 2024 | Copenhagen

- Explored how sound translates sensory experience into emotion—through composition and sound design
- Created sound design and music for films, visual media, and commercial clients (Adidas)
- Ran an independent creative business—client work, project planning, delivery

Installation Technician — Vertigo

Jan 2022 – Jul 2022 | Copenhagen (Internship)

- Developed interactive artworks using Raspberry Pi, microcontrollers, and TouchDesigner
- Designed and built custom LED fixtures and lighting systems for installations

EDUCATION

MSc Software Design — IT University of Copenhagen

2024 – 2027 | Amager, Copenhagen

- Focus on scalable backend systems, software architecture, and DevOps
- Research project with AUSCORA (DTU Skylab): Digital auscultation systems for heart sound analysis

MSc Software Design Exchange — Koç University

Sep_2025 – Jan 2026 | Istanbul, Turkey

- Cryptography, data privacy & security, parallel programming, computer vision with deep learning

BA Sound Design — Sonic College

2019 – 2022 | Kolding

- Bachelor's project "[Sound of Chess](#)": Interactive system combining sensor design, real-time audio processing, and generative algorithms

SKILLS

Programming Languages

Python, JavaScript/TypeScript, C#, C/C++, Java, HTML/CSS, SQL

Frameworks & Platforms

.NET, ASP.NET Core, React, FastAPI, Blazor, Entity Framework Core, SignalR

Systems & Performance

Parallel programming (OpenMP), GPU programming (CUDA), Distributed systems, databases

AI-Assisted Development

Claude Code, Cursor,

Cloud & DevOps

Azure (App Service, SQL, Blob Storage, Service Bus, Key Vault), Git, GitHub Actions, Docker, Linux, CI/CD, Vercel

Languages

Danish (native), English (fluent), German (intermediate)

OTHER EXPERIENCE

Support Worker - Nørrebro Vænge, Københavns Kommune (2024 – 2025)

Support for adults with physical and cognitive disabilities; relationship-based care, Low Arousal approach

Production Manager - The Green Flea Market (2024–2025)

Operations, team coordination, event planning

Project Manager - In The Studio (2023–2025)

Workshop and event series in Copenhagen featuring artists like Lorenzo Senni and Smerz; community-building and creative facilitation

Project Manager - Ny Lille Klub (2022–2024)

Co-founded non-commercial cultural community; collaboration and community building

Goalkeeper Coach - El Cambio Academy (2020)

Uganda; cross-cultural collaboration and adaptability

Professional Soccer Player - FC Nordsjælland (2011–2015)

Elite performance environment; stress management, team leadership
